- Receive your CE certificate
- Approved by the New York State Education Department
- Earn 3 home study CE credits

NYSDA Member Dentist \$100
Dental Hygienist \$50
Dental Assistant \$50
Non-Member Dentist \$150

About the Course

Infection Control in Dentistry:
A Practical Approach

Presented by Dr. Alyssa Tzetzio

Course objectives include reinforcing material to provide a safe working environment for dental health care personnel and their patients, reviewing seven core elements of NYS infection control training while incorporating OSHA regulations and CDC recommendations, and discussing current infection control practices.
